

AI Powered **GENERAL BOT**

Meet Your Personal AI Assistant
The General Bot & Specialized Support Bots

Smarter Access. Faster Insights. One Click Away.

Welcome to a new era of efficiency with our suite of **AI-powered bots**—built to put critical data and insights **right at your fingertips**. Whether you're looking for product details, daily reports, or performance summaries, your **personal assistant, the General Bot**, and its specialized companions like the **DCR Bot**, **Product Bot**, and **3P Bot** are ready to help—instantly.

No more time-consuming searches or navigating complex menus. Just open the **bot panel from the bottom-right corner** of your screen and access the exact data you need in seconds.

From real-time reports to daily call logs and performance metrics, these bots are designed to **streamline your workflow, reduce dependency, and enhance decision-making**—all through a smart, conversational interface.

“ How It Works

- Accessing Bots & Getting Instant Data

Step 1: Open the Bot Panel

On any screen in the system, locate the **chatbot icon in the bottom-right corner**. Click to open the **Bot Hub**.

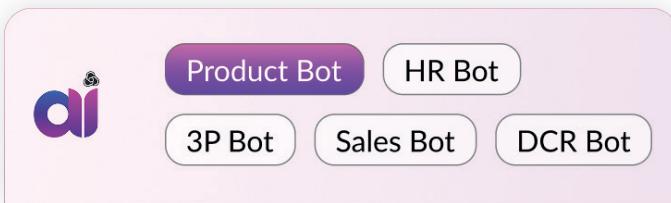

Step 2: Choose Your Assistant

Select from a variety of bots tailored to different tasks:

- **DCR Bot** - Instantly fetch employee Daily Call Reports
- **Product Bot** - Get detailed product information, specs, and usage insights
- **3P Bot** - Review productivity, performance, and planning reports

Step 3: Ask and Receive

Type or speak your request. Examples:

- “Show me today’s DCR for Dr. Sharma”
- “What is the composition of Product X?”
- “Give me the 3P report for XYZ Employee this Month”

The image displays three separate screenshots of the AI interface, each showing a different bot's welcome message and some input fields.

- DCR Bot Screenshot:** Shows a welcome message "Welcome to the DCR Bot!". It includes input fields for "Start Date" (01-Feb-2025) and "End Date" (28-Feb-2025), and a dropdown menu for "Employee" with "Aastik Parmar" selected. Below the date inputs, there are three statistics: "Chemist Visit: 107", "Doctor Visit: 128", and "Stockist Visit: 72".
- Product Bot Screenshot:** Shows a welcome message "Hello! How can I assist you today?". Below it, a question "What is the composition of CAPILLUS-M?" is typed into the input field.
- 3P Bot Screenshot:** Shows a welcome message "Welcome to the 3P Bot!". It includes dropdown menus for "Period" (set to "Current Month") and "User" (set to "aditya ravlya"). A list of names is shown in dropdown menus: aditya ravlya, sara khan, michael johnson, julia ortiz, liam smith, nina Patel, oliver brown, emma watson, jackson lee, and isabella Garcia.

The bot will return **personalized, real-time data** based on your input—fast and accurate.

“ Why It's a Game-Changer

- Centralized access to all key reports and data
- Natural language interaction—just ask
- Always-on AI support, 24/7
- Saves time, boosts productivity
- Empowers quick, informed decisions

It's not just a chatbot—it's your AI-powered command center. One click, one question, and everything you need is right in front of you.
