

AI Powered **VOICE COMMAND**

Meet Your AI-Powered Voice Command Assistant

Hands-Free Navigation. Fully Personalized. Completely Smart.

Welcome to the future of productivity—introducing your personal **AI Voice Command Assistant**, built right into the system to offer a **seamless, hands-free experience**.

Now you can control the entire platform with your voice—from accessing the admin panel to uploading files or navigating through complex workflows. Just speak naturally, and the AI understands, reacts, and executes—no clicks, no keyboard required.

Whether you're multitasking on the field or streamlining work at your desk, your voice becomes your most powerful tool. It's fast, intuitive, and completely tailored to how you work.

“ How It Works

- Voice Command Navigation

Step 1: Activate Voice Command

From the sidebar, simply tap on the Voice Command icon to activate your assistant.

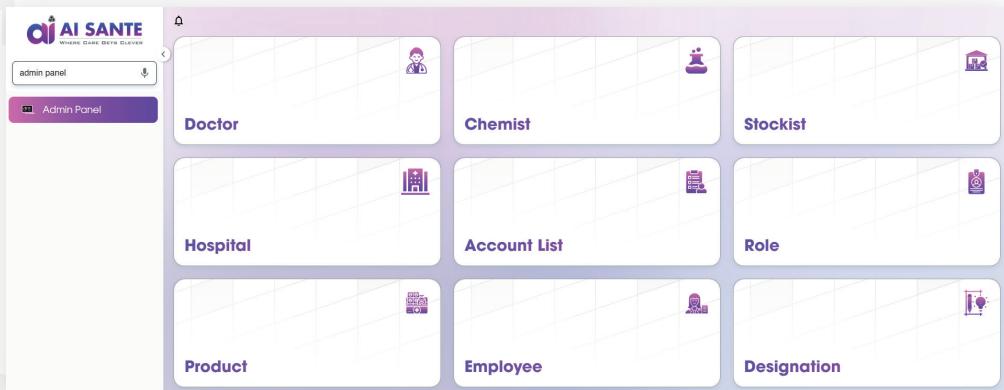

The screenshot shows the AI Sante platform interface. On the left is a sidebar with various menu items: Dashboard (selected), Analytic Dashboard, Admin Panel, Tour Program, Approvals, Mapping, Reports, Holidays, SFC, Attributes, and Inventory. The main area has a title "Sales Info" and a line chart comparing Total Sales QTY(2024-25) and Total Sales QTY(2025-26) across April and May for Demma and General categories. Below the chart is a table with columns: Division, Total Sales(2025-26), Total Sales(2024-25), AMS(2025-26), AMS(2024-25), and AMS Growth(%). The table data is as follows:

Division	Total Sales(2025-26)	Total Sales(2024-25)	AMS(2025-26)	AMS(2024-25)	AMS Growth(%)
Bios Derma	₹235,777.00	₹65,828,746.00	₹117,888.50	₹5,984,431.45	-98.030081%
Bios General	₹341,630.00	₹87,975,941.00	₹170,815.00	₹6,179,631.00	-97.235839%

Step 2: Speak Your Command

Start speaking naturally. For example:

- Say “**Admin Panel**” → and it opens instantly
- Say “**Upload**” → and the upload menu appears.
- Say “**Open Tour Plan**” → and your Tour Planning screen will load.

Step 3: Navigate with Ease

Use voice prompts to move across modules, search data, submit forms, or update your DCR—all without lifting a finger.

Step 4: Enjoy a Personalized Experience

The AI learns and adapts to your voice, improving with each interaction for a smoother, smarter user experience. Use voice prompts to move across modules, search data, submit forms, or update your DCR—all without lifting a finger.

“ Why You’ll Love It

- 100% Hands-Free Operation
- Faster Navigation & Task Completion
- Natural Language Understanding
- Reduces Manual Clicks & Errors
- Always-on Assistant—Ready When You Are

It's like having a smart co-pilot inside your system—always listening, always assisting. Just speak, and let your workflow flow.
